

## Styleline Riviera V4 Adds To Your Leisure Time Living

The more livable your screened porch the more time you'll have to enjoy it. With Styleline Riviera V4 windows you'll add months to the time you can spend in your leisure time getaway. The windows can be opened for the enjoyment of a summertime breeze without the insects. Closing the windows adds protection from summer sun and warmth in the cooler months. With safe, portable heating you may be able to enjoy your added room for up to nine months out of the year. This added versatility and attractiveness compliments the value of your home.

## The Right Choice You Can Depend On.

For over 40 years Styleline has been committed to manufacturing windows, doors, patio enclosures, gazebos and awnings of the highest quality. Our goal is to instill in you the confidence to purchase our products because of their quality and our commitment to service. Our products are sold through a network of highly qualified dealers and distributors that stand behind their work. Styleline's Riviera V4 Memory Vinyl Windows are custom manufactured using the highest quality materials available. They come with a lifetime warranty on aluminum frames and a limited 10 year warranty on Memory Vinyl glazing, screens and parts. Consult your dealer for a complete copy of the warranty.

Four-Panel Sliding Windows

By **Styleline**

These easy-to-open/easy-to-close windows with fully screened openings provide an attractive and versatile way to enjoy the seasons. Give your guests a relaxing way to enjoy your company or just enjoy the ambience of outdoor living without the insects. When closed, the tinted windows provide privacy, protection from the summer sun or protection from changeable weather. Season after season, Styleline Riviera V4 windows offer more enjoyment from your outdoor living area.

Because Riviera V4 Sliding Panel Windows are custom-made they can be manufactured to fit existing openings without reframing; or a completely new structure designed specifically for your needs.

## Vertical Four-Track Panels With Rugged Memory Vinyl

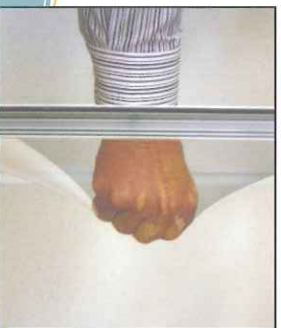

The Memory Vinyl used in the Riviera V4 Sliding Panels are lighter in weight and more affordable than glass. The Memory Vinyl can be easily cleaned with a mild dishwashing detergent and clear water rinse. If distorted, patented Memory Vinyl glazing returns to its original shape within minutes. If cut or damaged the vinyl glazing can be easily replaced and at a much lower cost than glass. 10-mil vinyl gives you an undistorted, panoramic view of your surroundings while protecting you from the wind and weather. Open these panels to seventy five percent of the window area and you have a fully functional screened porch.

## Your Choice of Frame and Vinyl Colors.

### Frame Colors

### Memory Vinyl Glazing Colors

If accidentally distorted, Memory Vinyl glazing returns to its original shape within minutes.

## Styleline Riviera V4 Features:
